

Specific oral nutritional supplements (ONS) product reviews – additional review opportunities

This document provides 4 further ONS review opportunities for 2026-27 PMOS, in addition to the 3 in the original PMOS ONS guidance. These additional reviews are optional, for those practices that wish to identify further patients.

For the full process, including exclusion criteria and the Microsoft Form for completion, please refer to the original ['Specific ONS reviews' guidance document](#). Pre-built searches for EMIS and SystmOne for these additional searches are available to download from the [Cornwall formulary](#).

Additional searches and switches

Please note searches 2.2 and 2.4 have been removed.

Search 2.1: 2 kcal/ml ONS
